13/100

Executive score report for deterministic grenade weapon benchmark output.

FAIL

13 / 100

Total benchmark score

Below passing threshold.
The PDF mirrors the verifier JSON result. Category bars below show which behaviors were observed at runtime and which remain incomplete.

Screenshot visual score

1/10

Auxiliary only - not counted in 100-point score.
no rendered screenshot visual evidence was observed; auxiliary screenshot score is not counted in 100-point score

Score Sections

Section	Score	Observed	Categories
Logic Score	13/100		Weapon Controls, Hud Feedback, Trajectory Preview, Projectile Physics, Explosion Gameplay, Visual Audio Polish, Stability Repeatability

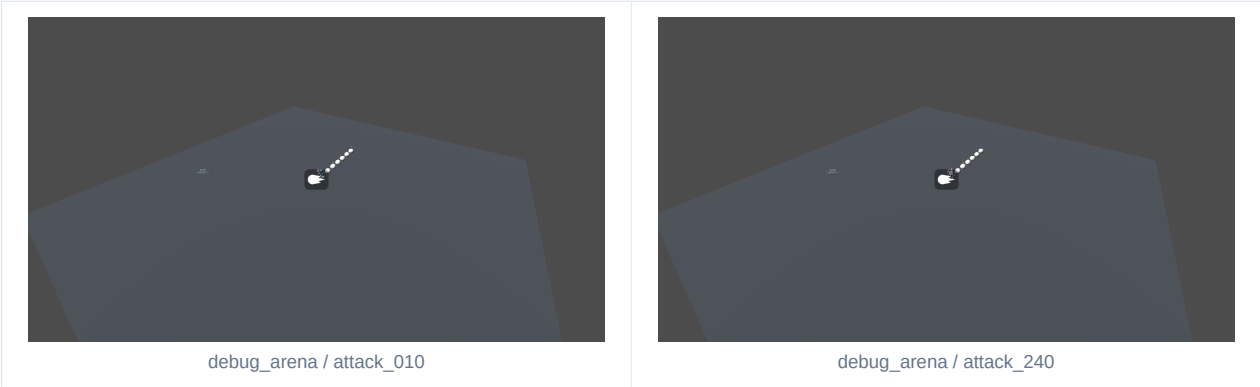

Auxiliary Visual Scores

These visual analysis scores are not counted in 100-point score.

Section	Score	Observed	Categories
Screenshot Visual Analysis	1/10		Debug Arena, Main Scene

Screenshot Evidence

Representative frames used by the auxiliary screenshot visual analysis.

main_scene / attack_010

main_scene / attack_240

Category Scores

Category	Score	Observed
Weapon Controls	3/15	
Hud Feedback	6/10	
Trajectory Preview	0/30	
Projectile Physics	0/15	
Explosion Gameplay	0/20	
Visual Audio Polish	0/5	
Stability Repeatability	4/5	

Key Findings

1. Trajectory Preview (0/30)	no visible grenade trajectory, landing marker, or equivalent aiming aid detected; trajectory details gated because no visible aiming aid was observed; trajectory details gated because no visible aiming aid was observed; trajectory details gated because no visible aiming aid was observed; trajectory details gated because no visible aiming aid was observed
2. Projectile Physics (0/15)	No nearby Node3D spawned after grenade attack.; arc motion not credited because no projectile spawned; player-safe path not credited because no projectile spawned
3. Explosion Gameplay (0/20)	default throw calibration failed at 8.00 units: default throw calibration failed: no nearby projectile-like node spawned; using fixed fallback target geometry; nearby target damage averaged across explosion trials: Seed 17031 throw raw nearby hit score 0/10; Seed 27059 throw raw nearby hit score 0/10; Seed 37087 throw raw nearby hit score 0/10; nearby damageable-only destructible damage averaged across explosion trials: Seed 17031 throw nearby damageable-only destructible was not damaged; Seed 27059 throw nearby damageable-only destructible was not damaged; Seed 37087 throw nearby damageable-only destructible was not damaged; blast locality averaged across explosion trials: Seed 17031 throw locality not credited because no detonation was observed; Seed 27059 throw locality not credited because no detonation was observed; Seed 37087 throw locality not credited because no detonation was observed; not all explosion trials detonated; player safety averaged across explosion trials: Seed 17031 throw player safety not credited because no detonation was observed; Seed 27059 throw player safety not credited because no detonation was observed; Seed 37087 throw player safety not credited because no detonation was observed; detonation effects averaged across explosion trials: Seed 17031 throw no runtime detonation effects observed; Seed 27059 throw no runtime detonation effects observed; Seed 37087 throw no runtime detonation effects observed; default throw calibration failed or landed outside the accepted envelope
4. Visual Audio Polish (0/5)	no moving projectile candidates were available for model inspection; no visible grenade or explosion nodes appeared; detonation audio not observed during visible detonation window; no temporary visual nodes were created

5. Weapon Controls (3/15)	no weapon-switch input route carries a controller binding; weapon mode did not observably switch through Tab key fallback; attack after weapon switch did not create observable runtime nodes; rate limit not credited because no grenade attack was observed; default aimed attack still creates runtime nodes
----------------------------------	---

Detailed Item Analysis

Weapon Controls Detail (3/15)

Result	Check	Evidence
Missed 0/2	Controller weapon-switch binding	no weapon-switch input route carries a controller binding
Missed 0/2	Weapon switch input responds	weapon mode did not observably switch through Tab key fallback
Missed 0/5	Grenade attack after switching	attack after weapon switch did not create observable runtime nodes
Missed 0/3	Rapid attack rate limit	rate limit not credited because no grenade attack was observed
Earned 3/3	Default weapon still works	default aimed attack still creates runtime nodes

Hud Feedback Detail (6/10)

Result	Check	Evidence
Earned 3/3	Visible UI controls	player has visible UI controls
Missed 0/4	Weapon-switch UI state	UI did not visibly change after weapon switch
Earned 3/3	Aiming UI feedback	aiming changes UI feedback

Trajectory Preview Detail (0/30)

Result	Check	Evidence
Missed 0/5	Visible grenade aiming aid	no visible grenade trajectory, landing marker, or equivalent aiming aid detected
Missed 0/6	Communicates arcing throw	trajectory details gated because no visible aiming aid was observed
Missed 0/8	Updates with aim/camera direction	trajectory details gated because no visible aiming aid was observed
Missed 0/7	Preview matches projectile direction	trajectory details gated because no visible aiming aid was observed
Missed 0/4	Visibility lifecycle/cooldown behavior	trajectory details gated because no visible aiming aid was observed

Projectile Physics Detail (0/15)

Result	Check	Evidence
Missed 0/4	Projectile spawned	No nearby Node3D spawned after grenade attack.
Missed 0/8	Arcing motion	arc motion not credited because no projectile spawned
Missed 0/3	Player-safe path	player-safe path not credited because no projectile spawned

Explosion Gameplay Detail (0/20)

Result	Check	Evidence
Missed 0/5	Nearby target damage across angles	default throw calibration failed at 8.00 units: default throw calibration failed: no nearby projectile-like node spawned; using fixed fallback target geometry; nearby target damage averaged across explosion trials: Seed 17031 throw raw nearby hit score 0/10; Seed 27059 throw raw nearby hit score 0/10; Seed 37087 throw raw nearby hit score 0/10
Missed 0/3	Nearby destructible damage across angles	nearby damageable-only destructible damage averaged across explosion trials: Seed 17031 throw nearby damageable-only destructible was not damaged; Seed 27059 throw nearby damageable-only destructible was not damaged; Seed 37087 throw nearby damageable-only destructible was not damaged
Missed 0/5	Blast locality across angles	blast locality averaged across explosion trials: Seed 17031 throw locality not credited because no detonation was observed; Seed 27059 throw locality not credited because no detonation was observed; Seed 37087 throw locality not credited because no detonation was observed; not all explosion trials detonated
Missed 0/2	Player safety across angles	player safety averaged across explosion trials: Seed 17031 throw player safety not credited because no detonation was observed; Seed 27059 throw player safety not credited because no detonation was observed; Seed 37087 throw player safety not credited because no detonation was observed
Missed 0/3	Detonation effects across angles	detonation effects averaged across explosion trials: Seed 17031 throw no runtime detonation effects observed; Seed 27059 throw no runtime detonation effects observed; Seed 37087 throw no runtime detonation effects observed
Missed 0/2	Throw distance calibration quality	default throw calibration failed or landed outside the accepted envelope

Visual Audio Polish Detail (0/5)

Result	Check	Evidence
Missed 0/2	Thrown grenade model	no moving projectile candidates were available for model inspection
Missed 0/1	Visible effect nodes	no visible grenade or explosion nodes appeared
Missed 0/1	Detonation audio	detonation audio not observed during visible detonation window
Missed 0/1	Temporary node cleanup	no temporary visual nodes were created

Stability Repeatability Detail (4/5)

Result	Check	Evidence
Missed 0/1	Repeated grenade attacks	repeated grenade attacks did not both produce runtime behavior
Earned 1/1	Default attack after grenade use	default aimed attack still works after grenade use
Earned 1/1	Main scene loads	main scene loaded with a playable player
Earned 1/1	Main scene default attacks	main scene default shooting and melee both produced runtime behavior
Earned 1/1	Main scene actors and pickups	main scene kept targeteables, damageables, collect_coin, and damage-spawned pickup behavior
